

CAMBO

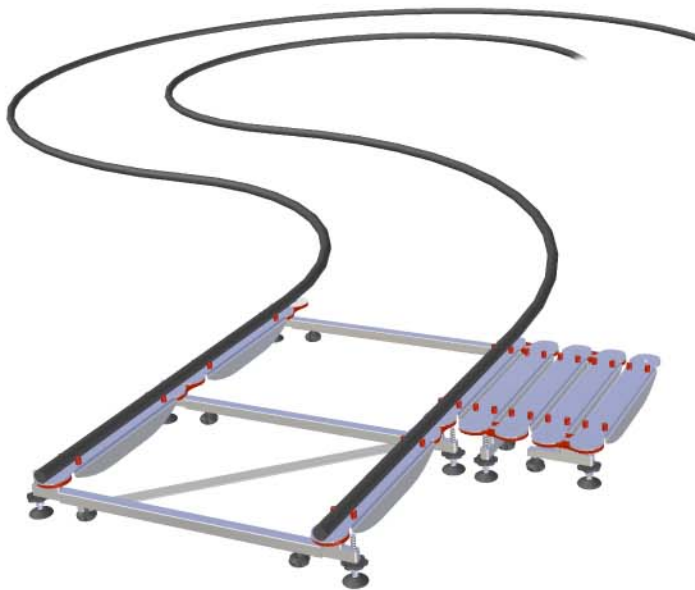

IBC 2005 Press

Pedestal Accessories:
Extensions 150 and 300 mm
Cable Guards
Spider for load up to 20 kg

At IBC 2005 Cambo presents
an expanding range of
Video & Broadcasting products.

Cambo, well known for its professional large format cameras, studio stands and accessories, has now developed and manufactured a full but still growing range of video & broadcasting products. Based on its long and wide skilled manufacturing experience customers can again expect high quality products.

UniTrack
All purpose track system
Does any curve from 1,5 meter Radius
up to an exact straight track

**Track Dolly
Combined with
pedestal system**

The V-40 Videoboom has been improved for an even more efficient set-up. The system, like all Cambo equipment still is made of high quality aluminium parts and uses modular systems for building your optimal personalised set-up.

The advanced use of 3D designing software in combination with Cad-Cam Machining make Cambo realise the product that you need to take you a distinctive step further ahead.

From the Artes and new Pedestal up to the V40 Videoboom and the new track system there is a Cambo solution to your satisfaction.
