

PRESS INFORMATION

September 26, 2018 - Photokina

Cambo Fotografische Industrie is proud to present new products on this exhibition, representing over 72 years craftsmanship from the Cambo factory in The Netherlands.

WRS-7250 - Wide Anniversary Edition

The Cambo WRS-7250 set is introduced to celebrate the 50th anniversary of the Wide Family, a kit with many special extras and including Rodenstock's best optics.

The WRS-7250 is based on the WRS-1600 with its unique feature to rotate the full camera/lens/back assembly in the tripod mount between landscape and portrait mode within seconds, without removing any part and still keeping the optical center in the same position.

Cambo WRS lenspanels are also available with Rodenstock's E250-shutter system, while the latest PhaseOne backs allow for shutterless optics for which Cambo also has options.

More product information can be found on our website under this link:
www.cambo.com/en/wide-rs-series/wrs-7250/

Expanding ACTUS - Series

Cambo's ACTUS series is a continuously expanding platform for view camera techniques using the newest and most modern capturing platforms. From the latest mirrorless cameras -such as the Nikon-Z- to the most advanced digital backs -such as the PhaseOne IQ4, the Cambo Actus will offer additional movements to get even better results from this equipment.

The new Actus-G is a true cross-platform solution with easy interchangeable mounts for all possible solutions.

Cambo has introduced a number of extra accessories for the Actus system, ranging from new mounts (Leica SL, Nikon-Z, Canon-Eos-R) and new lens possibilities (Actar-35, Actar-105 Macro) to an integrated base-tilt option, which offers additional tilt as well as extra indirect vertical shift.

More product information can be found on our website under this link:
www.cambo.com/en/view-cam/actus-g/

These new Cambo products are created from 72 years of innovative experience with in-house design and manufacturing of leading products in high-end photography.
